Socks on 2 Circular Needles with Kirsten Maier \$36.00 plus supplies

Tried knitting socks on DPNs and wanted to know if there was another way? Never knit a sock before at all and want to give it a go? This class is for you! Socks on 2 circular needles is a great technique that many avid knitters prefer. It is a very portable method and since you knit both socks at one time you avoid second sock syndrome. This class goes over how to cast on, knit, and bind off your socks when knitted using two circular needles. Basic stockinet socks are great for first timers but if you have a pattern you like feel free to bring it. This method can be used top-down or toe-up and we will focus on the toe-up method. Students should already understand the basics of knitting if attending this class. A handout with information covered in class including reference materials will be provided to students who attend. Supplies needed: 2 circular needles about 24 inches (longer is okay but a bit more awkward) in size you prefer for socks, sock yarn any type although I do recommend skipping the elastic stretch yarns.
